

PAD-KRAFT[®] 100% PAPER MAILER

Pregis Pad-Kraft padded paper mailers are an environmentally preferable way to protect items during shipment.

- Easily recycled
- Reliable containment
- Inexpensive protective packaging
- Excellent cushioning properties
- Durable construction for heavy items
- No set up required
- Option of self seal or plain seal

Pad-Kraft Product Features	Pad-Kraft Performance Advantages
Made with 100% recycled paper for padding material	More sustainable product choice; lessens dependence on virgin raw materials
Macerated padding glued between inner and outer sturdy kraft layers	Maintains padding consistency for enhanced protection; eliminates the need for additional packaging materials
Superior all paper construction	Reliable seam strength and puncture resistance
100% recyclable mailer 	Easily recycled through mainstream recycling programs
Self-sealing or tube style closure with serrated lip	Easy-to-use; secure closure; well suited for fulfillment operations
Tears from either side	No more searching for the tear tab; quick access from either side
Fold-over top and bottom construction	Added edge protection
Reinforced, folded and double sealed along bottom	Reliable burst strength

Easy to use

Tears from either side

No mess

APPLICATIONS:

- Books
- Electronic media: CD, DVD, flash drives, etc.
- Documentation: catalogs, directories, binders, etc.
- Mechanical parts: valves, gears, sprockets, hoses, wiring, bearings, switches, pumps, etc.
