

PROFLEX® PROFILES STYLE GUIDE

Pregis ProFlex polyethylene profiles provide surface and edge protection to limitless packaging applications. Able to conform to just about any product contour, ProFlex profiles are easy to use and withstand multiple impacts as well as constant vibration. They feature a chemically inert, odorless, clean, closed-cell structure with excellent resiliency, flexibility and shape memory. ProFlex profiles are an excellent method of protecting delicate parts for a variety of end markets and applications.

ProFlex profiles are available in an assortment of standard formulations, shapes and colors. They can be manufactured to meet your specific requirements, including fire retardancy, UV inhibition, static dissipation and enhanced malleability.
